OVERVIEW

Detail oriented, adaptable leader with a proven track record of success and real world application. Brings 9+ years of experience from the pharmacy industry having direct management of a multi-million dollar business. Trained in Full-Stack web development with experience coding in React, Python, C#, and JavaScript. Easily navigates ambiguity, makes decisions under pressure, and communicates effectively. Committed to quality, collaboration, and process optimization.

PROJECT EXPERIENCE

aMass – Full-Stack React Web App – Team Project (In-Progress)   June 2022
- NDA – Real estate informational App.
- Code bridge functions tying together front-end and back-end.
- Built using: React.js, JWT, MongoDB, CORS, Express.js, Node.js.

Karmatic – Full-Stack React Web App – Team Project   June 2022
- Community improvement app designed to bring neighbors together inspired by the concept of karma. Neighbors can ask for help or help out each other with Karma coins as an intermediary pseudo-currency.
- Received recognition for market innovation, user session security authorization, and user-session specific page rendering.
- Built using: React.js, JWT, GraphQL/Apollo, MongoDB, styled-components.

Clinical Platform – Full-Stack JavaScript Web App – Team Project   May 2022
- Concise and straight forward healthcare portal designed to stream line doctor patient relationship without all distractions common in today's applications.
- Built using: JavaScript, RESTful API, Express.js, Node.js, Hadndlebars.js.

PROFESSIONAL EXPERIENCE

Teaching Assistant

2U – Remote, USA   2022-present
- Apply student specific learning strategies while creating a positive and equitable learning environment for Full-Stack Developer candidates.
- Created and deployed teaching demos and tutorials.

Retail Pharmacy Manager/Clinical Pharmacist

CVS Health – Austin, Texas/Humana – Remote, USA   2012-2022
- Humana: Imagined, created, and presented to leadership Windows Batch program saving the department ~$1,700 per week.
- CVS: Piloted alpha phase program, subject matter expert for technical systems, led COVID vaccine role out, achieved top immunizer, and trained employees.
